**Summary:**

It's complete Business Management Solution according to the Laxmi Engitech Pvt. Ltd. this BMS manage Customers, Sales, Production, Dispatch and Stock. This project is on codelgniter Framework and Core PHP with PWA.

## WORKED FOR

### Jal Bandhu ([www.jalbandhu.com](http://www.jalbandhu.com))

**Language / Tools:** Wordpress CMS, JQuery, PHP/MySQL, PWA, Bootstrap 4.

**Summary:**

It's an e-commerce and plumber booking portal (<https://www.jalbandhu.com/>), I solely developed this website, I used wordpress and Codeigniter to complete this project, I designed and developed complete website. user can book plumber services like Urban Clap and buy product from their nearest shop because verified vendor can sell their products also.

Shop listing by Google Geo Location is implemented in this portal so user can view only shop which is listed on their area.

I used WP plugins for Marketplace and Geo location. PWA is implemented so user can install on their mobile also.

### Ant PC (<https://www.ant-pc.com>)

**Language / Tools:** CodeIgniter, JQuery, PHP/MySQL, Bootstrap 4.

**Summary:**

<https://www.ant-pc.com/> this project is an e-commerce platform on CodeIgniter Framework user can customize their item by selecting their components and price will change accordingly. I used JQuery frequently for accomplished the task.

### iNTEX (<https://www.intex.in>)

**Language / Tools:** HTML5, CSS, JQuery, Bootstrap 3

**Summary:**

<https://www.intex.in/> . it's an e-commerce for Intex products, I did UI/UX for this website.

### Indian Australian Cultural Association of Illawarra, Inc.

**Language / Tools:** Core PHP, MySQL, HTML5, CSS, JQuery, Bootstrap 3

**Summary:**

it's a Indian Australian Cultural Association's website. This project in on core PHP.

It's a CMS on core PHP. You can visit <https://www.iacagong.org/>.

I Solely designed and developed this responsive website.

### Comic Con India ([comicconindia.com](http://comicconindia.com))

**Language / Tools:** Wordpress, HTML5, CSS3, jquery, PHP/MySQL

**Summary:**

comicconindia.com is a Pop Culture Event company who organize 4 Comics Convention in Different Cities in India. So it require Schedule Management System, Guest Management, Latest Launches and many Other System which can handle Events Website, Hosted on AWS

### BookMyShow (Responsive Design For BookMyShow Ticket Page)

**Language / Tools:** HTML5, CSS

**Summary:**

Special single page module over bookmyshow.com for event organised in Bangalore. The page has multiple sections like large page size banner, online booking form for the shows, Fan Experience, Gallery, Venu Map (Google map), Schedule, T&C etc.

### V Boot Up (Multiple Image Download)

**Language / Tools:** Core PHP, JavaScript, HTML, CSS.

**Summary:**

We Can Download Multiple Image From it's URL . We have to put All URL in Excel sheet and Click on Download. It is Used For eCommerce website Where Vendor Provide Image Link Only to Download Images.

### VEM Tool (Visitor Entry Management )

**Language / Tools:** Core PHP, JavaScript, HTML, CSS.

**Summary:**

We can Keep Record of Visitor Data of any Event.
